

AFS Celebrates 10th Anniversary with Wine-Making Event

AFS toasts their tenth anniversary with a big wine-making event. They invited a group of clients and colleagues to join them in making their custom, hand-crafted red wine at Bacchus Winemaking Club in Toms River, NJ.

November 2013

"AFS Wine, The Making Of " — The story of our wine, details about our grapes, and the steps we took to craft our custom blend, complete with photos — [click here to read](#)

April 2014

Several AFS wine-makers returned to Bacchus Winemaking Club to "barrel taste" our wine. Samples were drawn from the barrel to check on the aging process. The wine was smooth and easy drinking, with the fruit of the Petit Syrah most noticeable. Continued tannin development is expected over the next few months in barrel, which will impart structure in the wine. The 2013 vintage for California grapes was a winner, and we're excited to bottle our wine this summer.

May 2014

We returned to barrel taste the wine again. What a difference a month makes! The Cabernet Sauvignon is more forward now, and the blend is becoming more dimensional.

July 2014

The design for our wine label has been chosen and we eagerly await the big bottling event.

August 2014

The big day finally arrived! Clients and colleagues joined AFS to bottle our 10th anniversary wine. — [click here to read](#)
